This Ordinance shall be known as the “West Deer Township Wireless Communications Facilities Ordinance.”

§ 210-139 Purposes and Findings of Fact.

210-139.1 The purpose of this Ordinance is to establish uniform standards for the siting, design, permitting, maintenance, and use of wireless communications facilities in West Deer Township. While the Municipality recognizes the importance of wireless communications facilities in providing high quality communications service to its residents and businesses, the Municipality also recognizes that it has an obligation to protect public safety and to minimize the adverse visual effects of such facilities through the standards set forth in the following provisions.

210-139.2 By enacting this Ordinance, the Municipality intends to:

210-139.2.1 Regulate the placement, construction and modification of Wireless Communication Facilities to protect the safety and welfare of the public;

210-139.2.2 Provide for the managed development of wireless communications facilities in a manner that enhances the benefits of wireless communication and accommodates the needs of the public and wireless telecommunications operators in accordance with federal and state laws and regulations;

210-139.2.3 Establish procedures for the design, siting, construction, installation, maintenance and removal of Tower-Based, Non-Tower Based, and Small Wireless Communications Facilities in the Municipality, including facilities both inside and outside the Public Rights-of-Way;

- 210-139.2.4 Address new wireless technologies, including, but not limited to, distributed antenna systems, data collection units, and other wireless communications facilities;
- 210-139.2.5 Encourage the co-location of Wireless Communications Facilities on existing Wireless Support Structures rather than the construction of new Wireless Support Structures;
- 210-139.2.6 Protect the public from potential adverse impacts of wireless communications facilities and preserve, to the extent permitted under law, the visual character of established communities and the natural beauty of the landscape;
- 210-139.2.7 Ensure that Wireless Communications Facilities will be removed in the event that such Wireless Communications Facilities are abandoned or become obsolete and are no longer necessary; and
- 210-139.2.8 Update the Municipality's Wireless Communications Facilities Ordinance to incorporate changes in federal and state laws and regulations.

§ 210-140 Definitions.

- 210-140.1 Certain terms used herein are defined at Part II, Chapter 210, Article IV, § 210-06 "Definitions".

- 210-140.3 Any terms not specifically defined shall be construed in their commonly-accepted meanings.

§ 210-141 Laws Applicable to all Tower-Based Wireless Communications Facilities.

- 210-141.1 The following laws shall apply to all Tower-Based Wireless Communications Facilities:

- 210-141.1.1 Procedures.

- 210-141.1.1.1 Any applicant proposing construction of a new Tower-Based WCF shall submit plans to the West Deer Township Building Inspector and Code Enforcement Officer for review by the Planning Commission and for

approval by the Board of Supervisors in accordance with the requirements of Part II, Chapter 210, Article XXIII, § 210-117, et seq., "Conditional Use".

210-141.1.1.2 The applicant shall prove that it is licensed by the FCC to operate a Tower-Based WCF and that the proposed Tower-Based WCF complies with all applicable standards established by the FCC governing human exposure to electromagnetic radiation.

210-141.1.2 Development Requirements. Tower-Based Wireless Communications Facilities shall be developed in accordance with the following requirements:

210-141.1.2.1 Permitted Subject to Conditions. Any Tower-Based WCF that is either not mounted on any existing Support Structure or is more than twenty-five (25) feet higher than the Support Structure on which it is mounted is permitted in certain zoning districts as a conditional use, subject to the restrictions and conditions prescribed herein and subject to the prior written approval of the Municipality. The Board of Supervisors may grant conditional use in accordance with the procedures and requirements of Part II, Chapter 210, Article XXIII, § 210-117, et seq., "Conditional Use".

210-141.1.2.1.1 Siting. Tower-Based WCF shall only be permitted in the following districts by conditional use, subject to the requirements and prohibitions of this Ordinance:

210-141.1.2.1.1.10 BTP Business and Technology Park Overlay.

210-141.1.2.1.2 Coverage or Capacity. An applicant for a Tower-Based WCF must demonstrate that a gap in wireless coverage or capacity exists and that the type of WCF and siting being proposed is the least intrusive means by which to fill the gap in wireless coverage or capacity. The existence or non-existence of a gap in wireless coverage or capacity shall be a factor in the Municipality's decision on an application for approval of Tower-Based WCFs.

210-141.1.2.1.3 Collocation. An applicant for a Tower-Based WCF must demonstrate there is not suitable space on existing wireless service facilities or other wireless service facility sites or on another sufficiently tall structure where the intended wireless service facility can be accommodated and function as required by its construction permit or license without unreasonable modification.

210-141.1.2.1.4 Site Plan. An applicant for a Tower-Based WCF must submit a full site plan to the West Deer Township Building Inspector and Code Enforcement Officer which shall include, but shall not be limited to, the following documentation and materials:

coverage including, but not limited to, scatter plot analysis and the input parameters for the scatter plot analysis. All Tower structure information shall be certified by a registered Professional Engineer (P.E.) licensed by the Commonwealth of Pennsylvania; and all wireless telecommunications data shall be certified by an appropriate wireless telecommunications professional.

210-141.1.2.1.4.4 A written report, titled "Cost of Wireless Facilities Removal" certified by a registered Professional Engineer (P.E.) licensed by the Commonwealth of Pennsylvania, detailing the total cost of removing and disposing of the Tower, Antenna, and all related facilities.

210-141.1.2.1.4.5 All other uses ancillary to the Tower-Based WCF and associated equipment (including, but not limited to, a business office, maintenance depot, or vehicle storage) are prohibited from the Tower-Based WCF site unless otherwise permitted in the zoning district in which the Tower-Based WCF site is located.

210-141.1.2.1.4.6 Where the Tower-Based WCF is located on a property with another principal use, the applicant shall prove that the owner of the property has granted an easement for the proposed facility and that vehicular access is provided to the facility.

210-141.1.2.1.4.7 An inventory of its existing Wireless Communications Facilities, including, but not limited to, all Tower-Based, Non-Tower, and Small WCF, that are either sited within West Deer Township or within one-quarter (1/4) mile of the border thereof. Such inventory shall include specific information about the

location, height, design, and use of each Wireless Communications Facility. The Municipality may share such information with other applicants applying for site plan approvals or conditional use permits under Section 210-138, et seq., or other organizations seeking to locate Wireless Communication Facilities within the Municipality; provided, however, that the Municipality is not, by sharing such information, in any way representing or warranting that such sites are available or suitable.

210-141.1.2.1.4.8 An evaluation of the need for additional buffer yard treatments.

210-141.1.2.1.4.9 Other information deemed to be necessary by the Municipality to assess compliance with this section, or any other requirement under the West Deer Township Code of Ordinances, state law, or federal law or regulation.

210-141.1.2.2 Underground District. A Tower-Based WCF shall not be located in, or within three hundred (300) feet of, an area in which utilities are required to be located underground.

210-141.1.2.3 Prohibited in Open Space and Conserved Lands. Tower-Based WCFs shall not be located within an Open Space or Conserved Land.

210-141.1.2.4 Prohibited in Environmentally-Sensitive Areas. No Tower-Based WCF shall be located in, or within five hundred (500) feet of, the habitat of a threatened or endangered animal species.

210-141.1.2.5 Sole Use on a Lot. A Tower-Based WCF may be permitted as a sole use on a lot subject to the minimum lot area and yards complying with the requirements for the applicable zoning district.

210-141.1.2.6 Combined with Another Use. A Tower-Based WCF may be permitted on a property with an existing use, or on a vacant parcel in combination with another residential, industrial, commercial, institutional or municipal use, subject to the following conditions:

210-141.1.2.6.1 Existing Use. The existing use on the property may be any permitted use in the applicable district, and need not be affiliated with the Wireless Communications Facility.

210-141.1.2.6.2 Minimum Lot Area. The minimum lot shall comply with the requirements for the applicable district and shall be the area needed to accommodate the Tower-Based WCF and guy wires, the equipment building, security fence, and buffer planting.

210-141.1.2.7 Minimum Setbacks for Towers. If a new Tower is constructed (as opposed to mounting the Antenna on an existing Tower or Wireless Support Structure), the minimum distance between the Tower and any property line or Public Right-of-Way line shall be equal to the height of the Tower plus the distance of the corresponding minimum yard setback (front, side and rear) for the zoning district in which the lot is located and any other additional requirements for that zoning district. Guy wires and accessory facilities must also satisfy the minimum zoning district setback requirements.

210-141.1.2.8 Minimum Setbacks for Accessory Structures. All Tower-Based WCF installations shall comply with the accessory structure setback requirements in Part II, Chapter 210 "Zoning", and shall be mounted in the rear yard or on the roof unless reception is inhibited or visibility increased.

210-141.1.2.9 Separation. A Tower-Based WCF with a height greater than ninety (90) feet shall not be located within one-quarter (1/4) of a mile from any existing Tower-Based WCF with a height greater than ninety (90) feet.

210-141.1.3 Timing of Determination. All applications for Tower-Based WCFs shall be acted upon within one hundred-fifty (150) days following the receipt of both, (1) a fully completed application for the approval of such Tower-Based WCF and (2) a fully paid, non-refundable application fee in an amount specified by the Master Fee Schedule. If the Municipality receives an application for a Tower-Based WCF and such application is not fully completed, then the Municipality shall promptly notify the applicant that the application is not complete and the time for the approval of such application shall not commence until a fully completed application is received by the Municipality. Unpaid applications are incomplete and not duly filed with the Township.

210-141.1.4 Notice. No later than thirty (30) days following the submission of a fully completed application for a Tower-Based WCF and the scheduling of the public hearing (if required), the Applicant shall mail notice to all owners of every property within a five hundred (500) foot radius of the proposed wireless communications facility. The Applicant shall provide proof of mailing of the notification to the Municipality within fifteen (15) days of completion of notification. If a public hearing is required, notice of any hearing before the Board of Supervisors shall be published in a newspaper circulating within West Deer Township at least ten (10) days prior to the date of said hearing; any mailing of notices that may be required by the Board of Supervisors shall be completed at least ten (10) days before such hearing and the proof of mailing shall be provided to the Municipality at least (5) five days before such hearing. The preparation and cost of publication and mailing of any notice required for such hearing shall be at the cost and expense of the applicant. Proof of mailing to all required property owners shall be demonstrated by providing the Municipality with a certificate or proof of mailing (United States Postal Service Form 3817 or 3877).

210-141.1.5 Collocation.

210-141.1.5.1 An application for a new Tower-Based WCF shall not be approved unless the Municipality finds that the wireless communications equipment planned for the proposed

Tower-Based WCF cannot be accommodated on an existing or approved Structure or Wireless Support Structure.

210-141.1.5.2 Any applicant proposing construction of a new Tower-Based WCF outside the Public Rights-of-Way shall demonstrate to the satisfaction of the Municipality, by written submission, that a good faith effort has been made to obtain permission to mount the Tower-Based WCF Antenna on an existing Structure or Wireless Support Structure. The Township may deny any application to construct a new Tower if the applicant has not made a good faith effort to collocate the antenna on an existing Tower, Structure, or other Wireless Support Structure. A good faith effort shall require that all owners of potentially suitable Towers, Structures, or Wireless Support Structures within a one-quarter (1/4) mile radius of the proposed Tower-Based WCF site be contacted and that the applicant certifies in writing to the West Deer Township Building Inspector and Code Enforcement Officer that one (1) or more of the following reasons for not selecting such structure apply:

210-141.1.5.2.1 The proposed WCF and related equipment would exceed the structural capacity of the existing structure and its reinforcement cannot be accomplished at reasonable cost;

210-141.1.5.2.2 The proposed WCF and related equipment would cause radio frequency interference with other existing equipment for that existing structure and the interference cannot be prevented at reasonable cost;

210-141.1.5.2.3 Such existing structure does not have adequate location, space, access or height to accommodate the proposed equipment or to allow it to perform its intended function; and/or

210-141.1.5.2.4 A commercially reasonable agreement cannot be reached with the owner(s) of such structure.

210-141.1.6 Standard of Care. Any Tower-Based WCF shall be designed, constructed, operated, maintained, repaired, modified and removed in strict compliance with all current applicable technical, safety and safety-related codes, including but not limited to, the most recent editions of the American National Standards Institute (ANSI) Code, National Electrical Safety Code, National Electrical Code, as well as the accepted and responsible workmanlike industry practices of the Communications Infrastructure Contractors Association (formerly, National Association of Tower Erectors). Any Tower-Based WCF shall at all times be kept and maintained in good condition, order and repair by qualified maintenance and construction personnel, so that the same shall not endanger the life or safety of any person or damage any property in the Municipality.

210-141.1.7 Wind and Ice. All Tower-Based WCF structures shall be designed to withstand the effects of wind and ice according to the standards promulgated by the American National Standards Institute as prepared by the engineering departments of the Electronics Industry Association, and Telecommunications Industry Association (ANSI/EIA/TIA-222, as amended). All Tower-Based WCF structures shall also be designed and constructed to withstand the wind and ice loads for the place of installation in accordance with the Pennsylvania Uniform Construction Code.

210-141.1.8 Height. Any Tower-Based WCF shall be designed and constructed at the minimum functional height. All Tower-Based WCF applicants must submit documentation to the Municipality justifying the total height of the structure. In no case shall a Tower-Based WCF exceed a maximum height of one-hundred fifty (150) feet.

210-141.1.9 Public Safety Communications. No Tower-Based WCF shall interfere with public safety communications or the reception of broadband, television, radio or other communication services enjoyed by occupants of nearby properties.

210-141.1.10 Maintenance. The following maintenance requirements shall apply:

- 210-141.1.10.1 Any Tower-Based WCF shall be fully automated and unattended on a daily basis and shall be visited only for maintenance or emergency repair.
- 210-141.1.10.2 Such maintenance shall be performed to ensure the upkeep of the facility in order to promote the safety and security of the public.
- 210-141.1.10.3 All maintenance activities shall utilize nothing less than the best available technology and practices for preventing failures and accidents.
- 210-141.1.10.4 The Municipality reserves the authority to require the cleaning, repainting, or repair of a Tower-Based WCF, including, but not limited to, the Tower, Accessory Equipment, and any other area where the exterior surface or appearance of such facility is not regularly or properly maintained, cleaned, repainted, or repaired.
- 210-141.1.10.5 Tower-Based WCF operators bear sole financial responsibility for all maintenance or emergency repair costs.
- 210-141.1.11 Radio Frequency Emissions. No Tower-Based WCF may, by itself or in conjunction with other WCFs, generate radio frequency emissions in excess of the standards and regulations of the FCC, including but not limited to, the FCC Office of Engineering Technology Bulletin 65 entitled "Evaluating Compliance with FCC Guidelines for Human Exposure to Radio Frequency Electromagnetic Fields," as amended. The owner or operator of such Tower-Based WCF shall submit proof of compliance with any applicable radio frequency emissions standards to the Township Manager on an annual basis, or within thirty (30) days following a written request by the Township. A Tower-Based WCF generating radio frequency emissions in excess of the standards and regulations of the FCC shall be considered an Emergency. The Municipality reserves the authority to revoke the permit of any Tower-Based WCF that (1) fails to timely submit proof of compliance or (2) that is generating radio frequency emissions in excess of the standards and regulations of the FCC.
- 210-141.1.12 Historic Buildings and Districts. No Tower-Based WCF may be located in or within one hundred (100) feet of any historic or

preservation district, property, building or Structure that is listed on either the National or Pennsylvania Registers of Historic Places, or eligible to be so listed, or is included in the official historic structures list maintained by the Municipality, or so designated as a Landmark.

- 210-141.1.13 Signs. All Tower-Based WCFs shall post a sign in a readily visible location identifying the name and phone number of a party to contact in the event of an emergency. No other signage or display is permitted.
- 210-141.1.14 Lighting. Tower-Based WCF shall not be artificially lighted, except as required by law.
